Whanganui River 2012

Annual Yakity Yak Kayak Club Trip
 What a change on last year's wet weather. This year we had blue skies and clear nights. It was a bit cooler than last year, but with no rain, yeah! High jinks with lots of laughs on a low river made for a great week away.
 You just can't beat the experience of an extended period in the bush for renewing friendships, making new friends and helping people out. We have hundreds of photos which tell the story, letting your imagination fill in the gaps.
 Thanks to the great team of leaders and clubbies who as always pulled together to make this a contender for the trip of the year, if not the trip of a life time. I'm already thinking about next year's trip.

Cheers Peter Townend
 Thanks to Brent & Wai Southen for their hospitality at Tieke Marae
