Introduction: This paddle takes you to a part of the country few people see. The Waikato River is a haven for duck hunters and white baiters alike. Their mai mais are a sight to behold.

Description: A vehicle shuttle is required between Tuakau and the dairy just before Port Waikato township. It is only a 20 minute drive.

Leaving Tuakau Bridge an hour before high tide allows you to make the most of the outgoing tide when on the lower reaches of the river.

Paddle down following the river left shore line. There is lots of wildlife to see and really fun mai mais to spot. Some you could live in.

As you approach Port Waikato, look out for the small beach before the promantrity. This is the get out point.

Hazards:

This is a paddle that will be made more difficult by the predominant westerly winds.
